CRAIGENGOWER WELL AHEAD.

Saturday was Craigengower's day outand the comparatively easy win against the Royal Garrison Artillery has placed the old school boys in a very sound positiou. The shield is now well within the grasp of Craigengower, for there is not much prospect of their being beaten though the R. G. A. still have a chance left. The two teams meet again in about a fortnight's time and even if Craigengower are then beaten, they will have to play a third match with the R. G. A. to decide the

There was a fairly large attendance on the R. G. A. ground on Saturday when the two teams met, the R. G. A. batting first. Three wickets fell rather cheaply, but Genner Nash and Captain Beasely made a very useful stand, and runs came fairly fast until Postonji secured Nash's wicket. A well delivered ball from Hancock dis* missed Beasley, after the latter had scored 20, and after C. S. M. Owen had tho misfortune to be run out, the innings was practically over, Hancock getting three 816 more wickets cheaply and Bellis being run

out. The innings closed for 86. G. Evans and Manderson won the match for Craigengower by their batting. The third wicket fell for 45 and Manderson and Evans carried the score to 86-tying the R. G. A. score-before a separation came, Evans being then bowled by Kerrick for 40. He Victoria, on THURSDAY, the 5th March, had played a very free innings, but was let off once. Manderson was run out immediately afterwards without an addition to the score and G. A. Hancock suffered a like fate, being run out in attempting a short run, Basa having patted the ball to fleg. Three wickets had thus fallen without an addition to the total and only one run was required. Rose joined Basa and drove the ball hard, getting the necessary single

A. Gregory, F. C. Hall, and P. Linton forwards, M. A. David, R. D. Atkinson, O. Eager, R. R. Turner and J. H.

Wales commenced to press, but there was no combination in their range. 1mmediately after the start Williams forced Garrett to give a corner, which was cleared. Coyno sent back hard, Garrett stopping. Good play by Gregory saw the ball travel to the other end, Eager trying a long shot without success. Mead did good work on the wing, beating Bishop almost invariably, but his centring was weak and several times the ball went behind. The ffirst goal was the result of tricky play by Thomas and D. J. Williams in the centre, Goldie receiving a pass when in front of goal. The latter player sent in fast and beat Chinchen, putting Wales one up. C. Humphreys cleared two very hard shots from Eager and Hall respectively, the latter being a particularly difficult ball to stop, and the success of the custodian brought forth applause from the spectators. After Mend had made one of his characteristic runs along the wing he centred, the ball falling right in front of goal and David headed into, the net, putting the scores equal. Gregory all but scored just after, Humphreys saving, and the first half ended with the core one all.

In the second spell England started better and from a corner Turner put the English representatives one ahead. Jones was keeping goal for Wales, C. Humphreys being at left balf. Turner put the ball in the net again shortly afterwards, but he was ruled offside and the goal did not count. Play was ragged right to the end, and calls for little comment. Just before time, Coyne gave Williams a chance which was missed and as Coyne again secured he put into the net, bringing the scores level. And so the game ended, two goals all.

CHINESE STUDENTS IN JAPAN.

Great Decrease In Number.

There are now, says the "Japan Mail," only some 5000 Chinese student's in Tokyowhereas there were more than twice that number in 1905. Since the summer of last year a slight increase has been noticed, but on the whole the one-time predilection shown for study in Japan has evidently ceased to be effective. From the point of view of the Japanese Authorities the chief cause of this diminution is to be found in the regulations published two years ago by the Educational Department for the better control of Chinese students. These regulations were absolutely necessary for the interestion of many flagrant abuses then existing, but their enactment was greatly resented by the Chinese students who construed them in the sense of injurious use of Trade-news items supplied by our say that they no longer come to Tokyo say that they no longer come to Tokyo because the idea of a one year's course in that city has ceased to hold out many We clip business news from more than practical inducements, and further because numerous competent schools have been of supplying what is needed and doing established in the home country. On the E MEEN. whole the presence of these students, in We can send you news and clippings on Tokyo has not been by any means an any line of business, or any subject, and unmixed advantage, for their doings and you will be able to know.
